

Melinda Hickey is a Certified Wound Ostomy nurse with 15 years' experience as a nurse. She completed her Wound Ostomy education through Metropolitan State University's program in 2009. Melinda is the wound ostomy team coordinator covering three different healthcare facilities within a hospital system. Her research interests involve enhancing the interdisciplinary communication with physicians and improving the discharge process for wound and ostomy patients. She is currently working on her MSN-AGPCNP through Purdue University. Melinda is a member of the National Wound Ostomy Continence Nurses Society and the Central Illinois Affiliate of WOCN.
